KB TOP MOUNT CONTROL - International Only

FEATURES

- Adjustable throttle brake to prevent throttle creep that is evident with some diesel engines.
- Adustable cable stops - easily accessible through removable top cover.
- Splash proof covers.
- Easy cable connection facility.
- Distinctive handle design helps operator identify throttle lever more easily, even in the dark.
- Standard control suits 3300/33C type cables.

Single function, twin lever. Popular on commercial vessels. External adjustable drag control.
Suits 3300/33C type control cables.
