

HYDRAULIC STEERING SPARE PARTS KIT

The steering component you have purchased is not a part that is prone to wearing out. It is possible there is an underlying issue with your steering system installation. Teleflex STRONGLY recommends that you contact Teleflex Canada @ 604.248.3858 to discuss your installation. Doing so will likely eliminate the problem in the future and allow safe operation of your steering system.

 **WARNING**

Failure to correct any underlying issue that may be directly related to the part that you have purchased may lead to loss of steering control resulting in unpredictable boat behavior leading to property damage, personal injury and/or death.
