

HYNAUTIC HYDRAULIC STEERING KITS are being replaced by SeaStar steering products

Please be aware that during the consolidation of the Hynautic and SeaStar products lines towards a common standard of our Hydraulic Steering Systems, the following Manual Hydraulic Steering Kits will not be available as of January 2004.

Please make the appropriate changes if you are currently using one of the following kits.

Kits Include:

ALL kits with the Application Prefix

OB* (see note), **IB**, **IM**, **I/O**, **HP**, and **MS**

Kit part numbers will be discontinued as of January 1, 2004. For PSO and PSC Power Steering Kits, please refer to Advisory Notice# 764630 for important details.

The Individual components included in the above kits are still available on an individual basis until further notice.

Please refer to our web site **www.seastarsteering.com** and follow the link to Hynautic for a parts break down of each kit, or if you feel that you need assistance in determining the proper steering components for your application, please contact Teleflex Canada for recommendations at:

e-mail: **info@teleflex.bc.ca**

Fax: **1-604-279-2202**

Note:

*** Hynautic Hy-Trac Kits are still available from Teleflex Canada. TCS Trim Tab Kits are still available from Teleflex Canada.**
