

BAYSTAR HELM PUMP UPDATE

Teleflex Marine would like to introduce you to the newest generation of the BayStar Steering System. As you are aware, BayStar helm pumps HH4016 and HH4015 were discontinued in June 2007 and replaced with BayStar Plus helm pumps as an interim solution while the new generation helm was finalized. The new BayStar helm will be available in September 2007. Please take time to read all notes below to familiarize yourself with the new BayStar helm pumps.

What's New?

NOTICE

The new cover design will only change on the front mount helms. Tilt helms will not change cosmetically.

- **Metal front cover.** We have used aluminum for the front and rear covers of these units.
- **Face Lift.** The new metal cover is quite different looking than its predecessor and even more so than the SeaStar helm covers. This alone will give the dash a clean, smooth appearance when installed.
- **Mounting Pattern.** We have changed to a 4 bolt mount configuration, patterned after the SeaStar Helms.

What's Changed?

NOTICE

ALL older, current and future BayStar steering cylinders, whether marked as 800psi or not, will be able to be used with these new helm pumps.

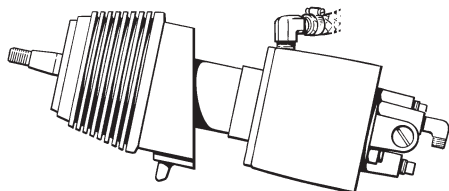

- **Mounting.** The new generation of BayStar helms will mount exactly like the current SeaStar helm pumps. If you are replacing an older HH4016 you will need to purchase adapter kit # HA5478.
- **Higher operating pressure.** Older BayStar units had a pressure relief setting of 800psi; the new BayStar units have had the operating pressure increased to 1000psi.
- **New Tilt mechanism.** As with the introduction of the new SeaStar Tilt Mechanisms in early 2007, the new BayStar Tilt helm will have the same "NO SLOP" as the new SeaStar Tilt helms.
- **Part numbers.** Both the front mount and the tilt helms have had new part numbers given to them to avoid any confusion in the field or when ordering, please consult the table below for new part numbers.

OLD PART #	DESCRIPTION	NEW PART #	DESCRIPTION
HH4016	Front Mount, composite cover	HH4314	Front Mount, Metal cover with facelift
HH4015	Sport Tilt helm	HH4315	Sport Tilt, Pro Series Tilt included

New Generation BayStar Helms
