## E-GO! FUEL INJECTOR CLEANING KIT

Fuel additives and gasoline alone cannot clean away layers of fuel deposits when the engine is running. The only proven method is by removing the “stale” fuel (the cause of the deposits) and using a fuel system cleaner periodically.

By using Sierra’s Fuel Injection Cleaning System regularly, you will help maintain the injector’s cleanliness and performance throughout the life of your engine. For best results, use E-GO! Blast Fuel Injector Cleaner (18-8606).

WHAT  
YOU  
GET

### KIT INCLUDES

[18-8601] Cleaning System Container

[18-8602] Hose

[18-8603] Small Fitting

[18-8604] Large Fitting

[18-8605] Carrying Case

N

Part No. 18-8606  
(12 per case)

# E-GO! BLAST FUEL INJECTOR CLEANER

Sierra E-Go! Blast restores lost power and performance by cleaning clogged fuel injectors using proprietary polyether amine (PEA) detergent technology. This product removes deposits that begin to form with every tank of gasoline. Save gas by keeping your fuel injectors clean.

## BENEFITS

- Immediate clean-up for all injector types (port or direct injection)
- Intake valve deposit clean-up
- Combustion chamber deposit clean-up
- Piston surface deposit clean-up
- Cleans better than traditional mineral-based or PIB (Polyisobutenamine) cleaners
- Increases power and performance
- Reduces emissions
- Improves fuel economy
- Prevents rough idle, hesitation and stalling
- Helps with cold start-up problems
- Helps prevent premature spark plug fouling
- Reduces deposit-related engine knocking and pinging
- Helps prevent injector misfire codes

# E-GO! BOOST FUEL SYSTEM BOOSTER

Sierra E-Go! Boost is a new state-of-the-art fuel additive made with the highest quality premium PEA and FLA technologies. It is the first product of its kind able to specifically address and treat the newer direct injection fuel systems in addition to the traditional intake-port delivery systems of today. Sierra E-Go! Boost is the first 3-in-1 product that provides a total system clean-up and keep-clean, fuel lubricity additive, and fuel stabilizer.

## BENEFITS

- Can be used in any type of engine; gasoline or diesel
- EPA and CARB compliant
- Ideal for all types of fuel systems
- Improves fuel economy and horsepower
- Cleans carburetor / fuel injectors in one tank
- Removes deposits from combustion chamber and intake valves
- One step process, just pour in the tank
- Prevents hesitation, rough idle, and stalling
- Allows less expensive, lower octane fuel to be used
- Reduces emissions
- Reduces the rate at which ethanol emulsifies and oxidizes
- Inhibits corrosion that results from emulsified ethanol-containing fuel
