

TROLLING MOTOR PLUGS

Sierra has recently introduced four new trolling motor plugs. Two are 12V connectors configured with three holes to mate with Mar-Lan plugs, **WH10560** Female Boat Side Socket, **WH10570** Male Motor Side Plug.

The others are heavy duty 24V connectors designed to carry heavy current loads up to 60A. The male has solid plugs for better conductivity. Each is made with high temperature plastic. **WH10640** Male Boat Side Plug, **WH10650** Female Motor Side Socket.

The complete range of trolling motor plugs from Sierra is listed below.

Part No.	Description
WH10470-1	Female Boat Side Connector, 12 V
WH10480-1	Male Motor Side Plug, 12 V
WH10490-1	Female Boat Side Connector, 24 V
WH10500-1	Male Motor Side Plug, 24 V
WH10520-1	Male Boat Side Plug, 12 V
WH10530-1	Female Motor Side Connector, 12 V
WH10540-1	Male Boat Side Plug, 24 V
WH10550-1	Female Motor Side Connector, 24 V

Part No.	Description
new WH10560	Female Boat Side Connector, 12 V
new WH10570	Male Motor Side Plug, 12 V
WH10600-1	Female Motor Side Connector, 12 V, V-Groove
WH10610-1	Male Boat Side Plug, 12 V, V-Groove
new WH10640	Male Boat Side Plug, 24 V
new WH10650	Female Motor Side Connector, 24 V

FEATURES & BENEFITS

Flush Mount Design

- Low profile eliminates obstruction for toes, lines and covers
- Spring loaded cover keeps out water when not in use

Eliminated Loose Connections

- Locking tab keeps connection tight

Tinned Copper Wire Leads

- Resists corrosion
- Lasts up to 10 times longer
- Increased conductivity
- Easily soldered
- Strengthens copper underneath to make it resistant to breaking

THE VERY BEST PARTS OF BOATING.
