

Date: April 6, 2020
To: Dometic Optimus customers
From: Shane DeWitt, Product Manager
Subject: EP15XX Optimus pump bracket change

Dear All Optimus customers,

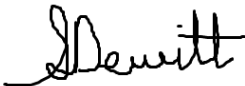

Dometic will be making a change to the pump mounting bracket. We will be moving to 316 stainless steel from painted type b steel.

This change will be phased-in and you can expect to see these new brackets mounted to the EP15XX models of pumps starting in the April 2020 timeframe.

Please see the attached PowerPoint for more detail.

We would like to thank you for your ongoing support for the Dometic Optimus system.

Sincerely,

Shane DeWitt
Product Manager
Dometic
